

Notice of Terminal Change

July 7, 2014

As previously announced, cargo operations at Port of Seattle Terminal 5 will be discontinued to permit the renovation of the terminal. Westwood's last ship call will be the Westwood Olympia 61E arriving at Terminal 5 on July 23rd.

As a result, Westwood Shipping Lines will move its cargo operations to the Husky Terminal at the Port of Tacoma. The terminal offers a full array of services including on-dock rail and covered storage for non-containerized cargo. The first ship call at Husky Terminal will be the Westwood Discovery 29E, scheduled to arrive on July 30th.

Utilizing Husky Terminal will allow Westwood to maintain and enhance our superior service levels for container and project cargo customers without any interruption to our vessel or rail schedules.

We appreciate your continued support of Westwood Shipping Lines.
